EDUCATION

University of Michigan | Penny W. Stamps School of Art & Design

- BA in Art & Design | Sept 2015 - May 2020
- Related Courses: Completed 20 credits in computer science including Data Structures & Algorithms and Discrete Math.

Student of the Year | April 2016

- Awarded Student of the Year by The Michigan Daily for work done with Redefine.

EXPERIENCE

ALLY FINANCIAL

UX Design Intern | May 2019 - Aug 2019

- Assigned to SmartAuction, a wholesale vehicle auction marketplace, and contributed to a 100+ person team of product owners, developers & designers doing greenfield agile development.
- Conducted a gap analysis of 50 purchase scenarios, corresponding vehicle status & available actions. Utilized findings to create a development & testing reference workbook that is used by over 10 developers, testers & designers. Designed a hi-fidelity template that is populated based on the scenario to resolve discrepancies in previous purchasing mockups.
- Conducted a gap analysis of all SmartAuction & whitelabel mockups & designed a common UI pattern library used by over 10 product owners, developers, testers & designers.
- Participated in journey mapping and persona development for posting a vehicle on the site.
- Completed accessibility training, observed the SmartAuction team's UX process, integration with agile and made recommendations on how to streamline the workflow.

Software Development Intern | May 2018 - Aug 2018

- Designed & developed a form in Salesforce Community using Apex and Javascript. Worked with developers to deliver a Java job to send emails with a custom, secure link to the form. Moved solution from Docusign to Salesforce, saving Ally \$353,000 annually.
- Implemented agile development practices by determining project scope & business requirements, as well as story authoring, development, deployment & testing.

FREELANCE DESIGNER & WEB DEVELOPER | May 2017 - Present

- Applying UX process & agile development to move a wholesale business to an online platform.
- Developed brand, merchandise & website for 4+ non-profit organizations and businesses.

LEADERSHIP

OPTIMIZE | U of M department that offers workshops, mentorship & funding for student-led social innovation projects.

Design Consultant | Sept 2018 - May 2019

- Guided over 15 Social Innovation Challenge teams in developing their brands & products.
- Created a branding brief to streamline design process for multiple teams.

optiMize Fellow | Sept 2015 - Aug 2016

- Awarded \$14,000 & summer fellowship for Redefine's high social impact, scalability & creativity.

REDEFINE | Organization promoting social respect through the exhibition of artwork created from experiences with inequality.

Co-Founder & Co-President | Oct 2015 - May 2018

- Led a team of 14 board members in operations, outreach, marketing, fundraising, and talent engagement initiatives. Developed brand & promotional material for the organization.
